

Digital Woodlands Incursion or Excursion 2015

Digital Woodlands is an engaging photography focused program that will introduce students to the skills, techniques and methodologies of digital photography and photo editing. Using an iPad shared between two, students take a portfolio of photographs that portray the special features of the bushland at the Field of Mars Reserve or at a bushland site near your school. Students will select a great photo to be printed and placed in an A4 photo frame. Students will use their photos to create a digital multimodal text that outlines their photographic journey. Digital Woodlands can be modified to complement the majority of classroom programs.

Suitable for Stage 2/3 - Max 2 classes - Supports Visual Arts, Sci & Tec, HSIE & English- Cost \$20 per student (GST Free)
