Invertebrate Explorer Multimodal Book for iPad & Mac

This multitouch book explores the incredible world of Australian invertebrates. Through the text students can investigate classification, features, adaptations and the habitats of a variety of Australian invertebrates through narrated videos, stunning images, interactive activities and detailed text. This book was designed by teachers to support the NSW Syllabus for the Australian Curriculum Science & Technology K-6 and English K-6. Content supports living world, Australian animals and Primary Connections units. Download Invertebrate Explorer for free on the iBookstore <http://apple.co/1ytOT1a>
