

# Mixed-Media Minibeasts Incursion 2015

During this whole day incursion students will collect their own invertebrate specimens and use them as inspiration for creating three amazing observational artworks using a variety of media. Students will learn the skills of a scientific illustrator to create detailed watercolour and line drawings, carefully sketch and make an ink print using scratch foam and use a stylus and an iPad to build a digital artwork.

Stage 2 and 3 - Max 3 classes per day - Supports Visual Arts and Science - Cost \$22 (GST free)
