Habitat Multimodal Book for iPad & Mac

Habitat is a special multitouch book that investigates the needs of living things through detailed text, interactive activities, videos and stunning images. Explore the value of habitats such as trees, shrubs and ground cover plants and non-living habitats such as leaf litter, rocks, logs and water. Find out how to create and restore habitats that will help animals survive and thrive. This book was designed by teachers to support the NSW Syllabus for the Australian Curriculum Science & Technology K-6 and English K-6. Download Habitat for free on the iBookstore <http://apple.co/1IbNcex>
